They're more confident in the face of change and uncertainty, more engaged and resilient, and have a greater sense of purpose and well-being. But fear can sometimes keep us from being real. In this presentation, Mariana Atencio brings her energy, humor, and skillful storytelling to inspire people to embrace their authenticity and unleash the power that comes with being themselves. Being "Perfectly You" builds trust and connection – it attracts people like a magnet because authenticity stands out in a world of algorithms and A.I. content. Mariana's unique personal story and infectious optimism energizes people with the courage to fully engage, adapt to constant change, and reach new levels of fulfillment at work and in life.

Beyond Coping: How to Foster Resilience, Connection, and Happiness in the Workplace

Johnny Crowder

Creator and Founder of COPE NOTES

Crippling burnout. Chronic absenteeism. Rampant resignations. The multi-headed monster of compassion fatigue, longer working days, and employee isolation are damming up the rivers of productivity at thousands of companies. Employers are concerned—and rightfully so.

Leveraging insights from his own lifelong mental health journey, Johnny Crowder shows audiences why talking about mental health should be as straightforward as talking about physical health, even in the workplace. In plain English, he shares the hard-won strategies for emotional wellbeing that led to the creation of his science-backed breakthrough mental and emotional support program, Cope Notes, which is now in use in nearly 100 countries around the world.
