Embrace the Shake
Phil Hansen - Artist

For the tens of millions who have seen Phil's art on TV and online, it's hard to imagine that his artistic journey nearly came to an end when a tremor developed in his drawing hand.

In exploring new ways to create art, Phil discovered that by embracing his shake, limitations could become the passageway to creativity.

His inspirational story was first shared on the TED stage to a standing ovation, and then shared around the world including on PBS, BBC and CBC. Phil's ability to draw parallels to the business setting has won him followers among industry and business leaders, leading to invitations to speak at the TED conference, Adobe MAX Creativity Conference, World Summit of Nobel Peace Laureates, and the Million Dollar Round Table.
